

CTA ROADWAY IMPACTS

Terminal 1.5 APM Pedestrian Bridge Construction

Monday, February 21 through Tuesday, April 5, 2022

Varying times between 10PM and 7AM

ACTIVITY

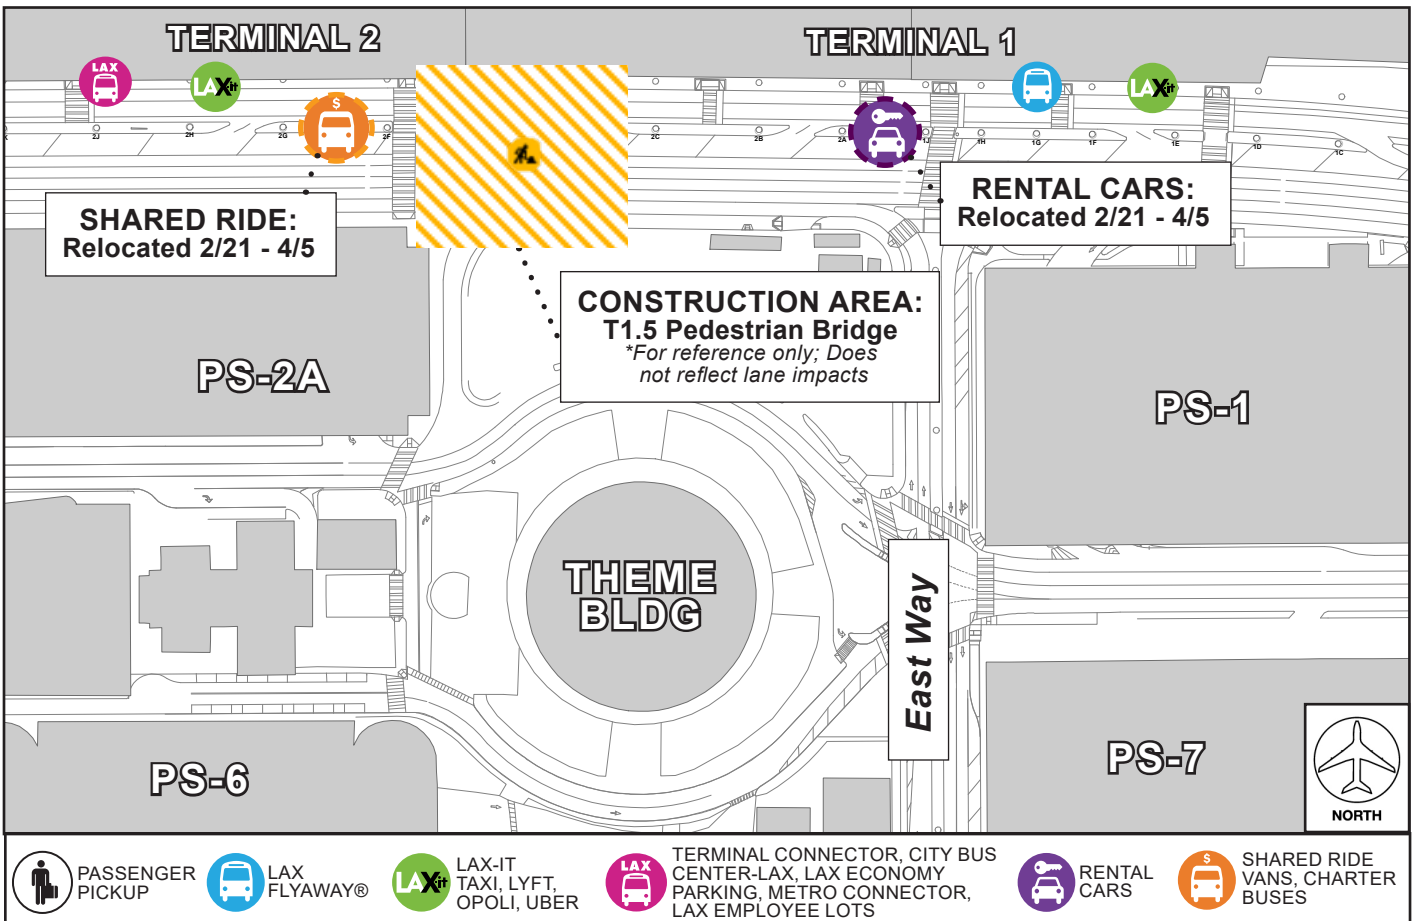

The Automated People Mover project will construct a new Pedestrian Bridge over the roadways between Terminals 1 and 2 to connect the APM's future Center CTA Station with the Terminal 1.5 Vertical Core. Construction will require various nightly lane restrictions and / or full closures on World Way North at Terminal 1.5 between Monday, February 21 and Tuesday, April 5, 2022.

Nightly full closures of Arrivals Level Outer Lanes are currently scheduled for Monday, February 21 to Wednesday, March 9, and Monday, April 4. Nightly full closures of all Departures Level lanes are currently scheduled for Sunday, February 27 to Friday, March 4 and Sunday, March 6 to Wednesday, March 9. Work will occur during limited overnight hours. Additional notifications will be issued with more details for the scheduled full closures on both levels.

For the duration of this work, the existing Rental Car stop will be temporarily relocated to the east where the current Shared Ride Van stop is. The existing Shared Ride Van stop will be temporarily relocated to the west of the construction area. These temporary relocations are illustrated on the map below.

Detours for shuttle operations, vehicular and pedestrian traffic will be implemented as needed. Signage and flaggers will be in place to assist with wayfinding, including directing pedestrians to alternate shuttle stops when certain existing stops are closed for this construction.

Please watch for posted signage and prepare to follow all detour routes during all phases of work. Always use caution when traveling through construction areas.
